

Let's take the checkup on an earlier date!

Medical examination certificate for 2024

Students who have undergone a health checkup can receive the checkup results in the form of a medical examination certificate. This issuance will be the notification of the result. When the chest X-ray showed no findings, the certificate will be issued according to the following schedule. If you need a certificate, we recommend that you take a checkup as on an earliest date as possible. If you did not undergo a checkup, or if you did not complete the checkup including the web-based screening, a certificate will not be issued.

Examples for occasions when a certificate is required include a clinical practice, an educational practice, and employment activities, etc.

How to obtain a medical examination certificate

You can obtain your certificate for a charge via on-campus issuance machines or convenience stores. You must apply online in advance for the automatic certificate issuance.

If you were determined to require a re-examination based on the chest x-ray findings, you will not be able to obtain a certificate via on-campus issuance machines or convenience stores. In such a case, contact a nearby Center for Health Sciences and Counseling (in your campus) as soon as possible.

Online Application

Certificate Issuance Schedule

Date of checkup		Start date of issuing certificate
From April 2	To April 5	Around April 25
From April 8	To April 12	Around May 1
From April 15	To April 19	Around May 15
